ELIMINATE THE STANDS

LESS TO SET UP

FITS ANY SIZE KIT

MANY SET-UP OPTIONS

Gibraltar's unique Stealth Vertical Mounting Systems create a clutter-free profile by removing the bulk of individual tripod-based stands and mounting hardware.

4-piece Kit Stealth Set-up

The Stealth's low profile and small foot-print creates a super sturdy foundation for just about any drum and cymbal mounting options that you can imagine!

6-piece Kit Stealth Set-up

By eliminating stands Gibraltar's Stealth System means much less hardware to set up and breakdown - as well as less weight to carry. It opens up the floor space for optimum microphone placement.

Alt-5-piece Kit Stealth Set-up

Showcase your drums with a super clean stage appearance. Design your own custom Stealth drum kit system!

Double Bass Kit Stealth Set-up

eRack

GCS-ERK
eRack Vertical Mounting System

Gibraltar just gave you another reason to love your electronic drum set. Super functional, sturdy and incredibly stylish Gibraltar eRack raises all the 'bars' for electronic kit mounting systems!

The eRack is ready for your own personalized drum pad and controller positioning.

The small footprint frame is designed for use with any brand of electronic drum kit.
