#### FRÉDÉRIC CHOPIN: BALLADES – REVISED

*edited by Norbert Mülleemann*

*fingered by Hans-Martin*

*Theopold*

*Henle Urtext Edition*

In 1836 Chopin introduced the term "ballad" into piano music with the publication of his Ballad op. 23, although up to then it had

only been used in literature and in vocal music. Indeed, all four of Chopin's ballads have the character of a dramatic story: the musical thread is spun with increasing tension throughout the work, reaching a powerful climax at the end. Following the "Preludes," we have now thoroughly re-evaluated this edition and revised it to include the latest scholarly findings. The most significant ones are documented in the printed critical apparatus; the detailed version can be downloaded from the Internet.

## ALEXANDER SCRIBIN: PIANO SONATA NO. 8, OP. 66

*edited by Valentina Rubcova;*

*fingering by Michael Schneidt*

*Henle Urtext Edition*

In his last years, Scriabin realized a noble and great idea. Inspired by his study of theosophical writings, he dreamed of joining music,

poetry, mime, architecture, light, color and even aromas to create a "Gesamtkunstwerk", and thus elevate human beings to a higher level of consciousness. This "Mysterium" was never completed, but his late piano sonatas—conceived as preliminary studies—enable us to see what moved Scriabin. He spent a particularly long time working on his eighth sonata and proofread it intensively; but later quite a few mistakes still found their way into it. Thanks to the autograph and the first edition, ambiguous passages have now been cleared up and corrected in our Urtext edition.

*(OR BASSO CONTINUO)*

*edited by Henrik Wiese*

*B.c. realization by*

*Wolfgang Kostujak*

*Henle Urtext Edition*

Did Mozart intend this work to be a duo for two bass instruments, or—as the simple basso-like manner of the second part suggests—a sonata for bassoon and keyboard instrument? We will probably never know the answer because the autograph has gone missing. Our edition allows different instrumentation; it not only contains scores for the duo version but also one so it can be performed as a solo bassoon sonata, following the style of the time with a figured bass realization. And cellists—who are not blessed with many works by Mozart—will appreciate the version of this endearing work for cello and figured bass.

### JOSEPH HAYDN: STRING QUARTETS VOLUME II, OP. 9

*edited by Georg Feder*

*Henle*

Six works belong to opus 9 – the first group of Haydn's string quartets of which we know. The composer also went new ways as far as form was concerned:

whereas he had still adhered to the five movement divertimento in the previous quartets opus 1 and 2, in this case he favored four movements, something he continued in the future. Apart from this, he also expanded the register and experimented with metric surprises (for instance in the trio of the minuet from the G major quartet). This study edition, introduced with a preface by the Haydn specialist Georg Feder, complements our proven parts edition (51480206) and now presents these popular works to all music lovers in score form.

**THE INFINITE VARIETY  
OF MUSIC**

*by Leonard Bernstein*

*Amadeus Press*

With style, wit, and expertise, Leonard Bernstein shares his love and appreciation for music in all its varied forms in *The Infinite Variety of Music*, illuminating the deep pleasure and sometimes subtle beauty it offers. He begins with an

"imaginary conversation" with George Washington entitled "The Muzak Muse," in which he argues the values of actively listening to music by learning how to read notes, as opposed to simply hearing music in a concert hall. The book also features the reproduction of five television scripts from Bernstein on the influence of jazz, the timeless appeal of Mozart, musical romanticism, and the complexities of rhythmic innovation. Also included are Bernstein's analyses of symphonies by Dvorák, Tchaikovsky, Beethoven, and Brahms, a rare reproduction of a 1957 lecture on the nature of composing, and a report on the musical scene written for the *New York Times* after his sabbatical leave from directorship of the New York Philharmonic during the 1964-65 season.

### FRANCO CORELLI

#### PRINCE OF TENORS

by René Seghers

Amadeus Press

His exceptional good looks made him a matinee idol, and Franco Corelli—the Prince of Tenors—was dubbed “Mr. Soldout” for 20 consecutive years. In 1958, just seven years after beginning his

career, he was already the highest paid tenor in Italy. Following his Met debut in 1961, he was celebrated as the greatest tenor in the world, a position that he retained until his departure from the Met in 1975.

His charismatic performances in such operas as *La Vestale* and *Fedora* (both in collaboration with Maria Callas), coupled with a formidable mystique, as well as a number of notorious and colorful incidents, including his real-life sword fight with Boris Christoff in Rome, the Callas walkout there, the beating up of a spectator in Naples, and the alleged biting of Birgit Nilsson on a Boston tour of *Turandot*, created a mania for Corelli.

Nearly a decade in the making, this definitive biography is based on the author's extensive research of theater archives and interviews with the opera star's numerous friends, family members, colleagues (Nilsson, Pavarotti, and many others), as well as the management of some of the world's leading opera houses.
