Syncopated Pedal Study

- This study trains the foot to lift the damper pedal, the pedal on the right.
- The half of the first play the pedal, while the heel stays on the floor. (2 pedal indications shown.)
- To find the coordination, take the movement away from the keyboard, say "up/down" (moving your foot up/down) as you tap the chord on your knee. (The hand movement "down/up" is contrary to what the mouth is saying.)
- Continue playing diatonic chords till you reach middle C. Remember the "up" really plays the pedal.
- Start with the pedal down before you play.

Primary Chord Study: I-IV-V

Primary chords I, IV, and V are the most used chords in any key. They provide the basic structure of most music. Analyze all and label #1 with letter names and Roman numerals. Practice hands alone; then together. Listen to RFF chords to identify chord inversions. Pedal chord changes and transpose #1 to all 12 keys.

Improvisation and Ensemble

As classmates play Primary Chord Study No. 2, use any white key to improvise a melody using this chord.

Sight-reading and Tune By Ear Ensemble

- Analyze diatonic chords then set a study guide to sight-read. If necessary, tap rhythm hands together.
- As classmates play mm. 1-16, play "Heart and Soul" by ear. Begin with 2 half notes an octave above middle C.

Hoagville

Improvisation and Ensemble

- As classmates play mm. 1-16, improvise a new melody using any white key. Follow the rhythm of "Hoagville."
- As classmates play and repeat mm. 1-8, improvise a new melody using the three pentads C-E-G, F-G-A, and G-A-B.

Sight-reading and Lead Sheet Harmonization with ii7 and V7/V

- Look over the piece then play without stopping. Choose a tempo that affords a steady beat.
- Go back and analyze. Label with Roman numerals then play again observing articulation. Transpose to C.
- Practice the chord symbols with LH and RH, then add the melody (organ only). Play the RH first throughout.
- If needed, review "In" chords on p. 133.

**Chapter 5
BEGINNING IMPROVISATION**

THE BLUES SCALE

Most improvisation scales are based on scales that relate to the harmony of a song, but playing with good rhythm is equally critical. Read each line to learn important techniques for playing the blues scale, especially when you start with a particular improvising line. One of the best ways to get started improvising is to use the **blues scale**, shown below in the key of F. The blues scale can be learned by playing the F, G, Ab, C, D, Eb, Gb, and Ab notes in the order shown.

FEELING TIME

When you improvise, you need to "feel" your way through a melody. Once you can do this, you can learn to feel dynamics of a song and make it your own. This is the most important skill to learn when improvising. The following exercises will help you learn to feel time, in the example below, using a one-measure rhythm. These play patterns are repeated four times each, played with the same rhythm, indicated by notes of grace. The title is written in the key of F. Make that play this and all subsequent examples with a swing feel.

In the next example, I again play one-measure blues scale phrases based on a rhythm, but this time without the measures of rest.

HAL LEONARD STUDENT PIANO LIBRARY

PIANO METHOD BOOK 1

From the very first lessons in **Book 1**, students are making music as they explore the piano keyboard through fun improvisation pieces called *My Own Song*. The beginning of the book introduces finger numbers, the black-key and white-key groups, and basic rhythm patterns.

Directional reading is taught first by finger number, then by note name, and then by interval (step, skip, and repeat). Once the students are introduced to the staff, they learn reading guides **Bass F** and **Treble G** and read by interval in several different hand positions.

Music History Timeline
THE MIDDLE AGES

MUSIC
During the Middle Ages (also called the Medieval Period), the Roman Catholic Church was the most powerful influence in European life. The church's music was a collection of sacred melodies called Gregorian chant, which was written down on staves with Latin words. The church was responsible for about 90% of the music written during this period. Secular music was also written, but it was often for the entertainment of the nobles. This music was often in the form of the troubadour and trouvère songs. The troubadours were poets, musicians, and singers who wrote and performed songs for the nobles. The trouvères were similar, but they were from the north of France. The troubadours and trouvères were the first to write down their music. This was called notation. Church music was written down using square, or square notes.

Fred Kern, Phillip Keveren, Barbara Kreader, Mona Rejino

The Hal Leonard Student Piano Library's *Adult Piano Method* takes an all-in-one approach by combining lessons, solos, technique, and theory into a single volume. This innovative series is authored by the skilled writers of the HLSPL children's method – accomplished composers, teachers, and performers with a broad background in piano pedagogy. The authors have taken a logical step-by-step approach, always keeping the adult learning process in mind. The book is well-paced, moving quickly but comfortably through new concepts and material. Beginning adult students will find this book challenging enough to be interesting, yet easy enough to experience a sense of accomplishment and satisfaction. Richly orchestrated accompaniments available online will provide students with a sense of rhythmic security and musical accomplishment as well as encouraging them to practice on their own.

ADULT PIANO METHOD BOOK 2 LESSONS, SOLOS, TECHNIQUE, & THEORY

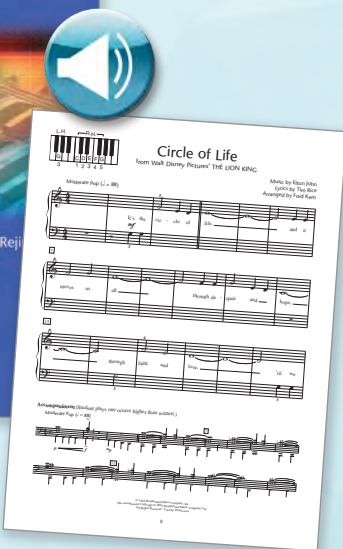

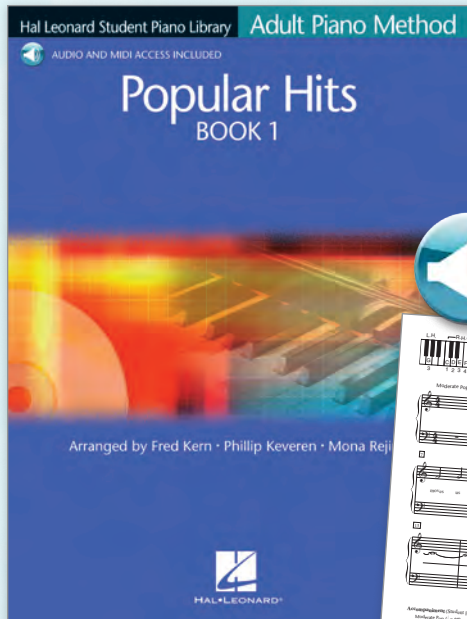

Fred Kern, Phillip Keveren, Barbara Kreader, Mona Rejino

The *Adult Piano Method Book 2* begins with a brief review of concepts covered in Book 1, then proceeds step-by-step through 5-finger patterns in C, G, and F – all the way through to major scales in the keys of C, G, and F and their related scales A, E and D minor. Just as in Book 1, the imaginative and entertaining music found throughout Book 2 makes learning a pleasure and a key factor for student success. Great solos emphasize and support the introduction of new concepts in logical, steady sequence. These enticing solos encourage students to move ahead, and they are rewarded with two great arrangements from every adult's "Top Ten" list: "The Entertainer," and "Für Elise." Improvs, Quick Licks, Ad Libs, Sight Reading, and Technique Tips sprinkled throughout focus on using new skills and add musical fun along the way. Audio accompaniments are by Phillip Keveren.

A forward-moving first movement in D minor with ample parallel passage work in the solo piano part provides a compelling opening to the concerto. The lyrical second movement precedes a rollicking, final movement in the key of D Major. Suitable for the advancing pianist as well, this youth concerto is also a great repertoire selection for concerto festivals and competitions. Score includes two performance copies of the entire concerto.

JAZZ AND CONTEMPORARY STYLES

JEREMY SISKIND is quickly becoming one of the top jazz pianists of his generation. He recently was named the winner of the Nottingham International Jazz Piano Competition, a second-place finisher in the Montreux Jazz Festival Solo Piano Competition, and a two-time finalist for the American Pianist Association's Cole Porter Fellowship. His 2012

recording, *Finger-Songwriter*, has been hailed as "one of the best albums I've heard all year" by *Emusic* and "one of the most remarkable records I've heard in a very long time" by the *MinnPost*. Named a Professor of Piano at Western Michigan University in 2012, Siskind is an active educator – he's a regular contributor to *Clavier Companion* magazine and a frequent clinician for Yamaha and Hal Leonard, who published his first book, *Jazz Etude Inspirations*, in 2011. In addition to his musical degrees from the Eastman School of Music, Siskind holds a degree from Columbia University in English and Comparative Literature.

FIRST LESSONS IN PIANO IMPROV A BASIC GUIDE FOR EARLY INTERMEDIATE PIANISTS

Whether the goal is to be a classical or a jazz performer, improvisation is a deep, intense way to learn the rules of music. Good improvisers become native speakers of musical language and not just readers of notes. This book is especially geared to the classically-trained late elementary/early intermediate pianist (and their teacher) who wants to grasp the basics of improv. Siskind guides student and teacher through fun, easy exercises along with helpful tips and guidelines.

JAZZ PIANO SCALES AND EXERCISES

AN ENGAGING WAY TO PRACTICE SCALE PATTERNS AND ETUDES WHILE LEARNING JAZZ

by Lee Evans

Scales have long been considered an essential element of keyboard mastery. They provide piano students the technical skill needed to play the instrument and give practical instruction in the basics of music theory. *Jazz Piano Scales and Exercises* presents a novel and more interesting way to practice patterns and etudes while learning jazz. Following the notation and fingerings for scales – major, harmonic minor, and melodic minor – in each of the 12 keys, three jazz exercises are given. These serve to reinforce the patterns and fingers and to give the player a sense of the melodies, rhythms, and harmonies that are integral to jazz stylings.

SYMMETRICAL WARM-UPS

by Christos Tsitsaros

The benefits of warming up sufficiently before practicing have been the subject of various studies in keyboard journals and scientific publications on performance health and medicine. One of the easiest and safest ways to warm up remains to simply perform the activity for a short time period at a lower rate and intensity. Warm-ups included here are relatively short, symmetrical, in progressive difficulty, and based on the physiology of the hand and its proper relation to the keys. A wonderful companion for every player!

PIANO TEACHER'S GUIDE TO CREATIVE COMPOSITION

by Carol Klose

This book is meant to assist teachers who wish to introduce their students to creative composition but have limited lesson time available and feel the need for some direction in starting and continuing the process successfully. The process involves devoting as little as five minutes of lesson time to composition, but at every lesson over a period of, for example, six to eight weeks. Suggestions in the concise Lesson Plans help bring

about gradual changes or improvements from week to week that are enough to keep the piece developing, and, more importantly, to keep the student immersed and motivated in the process.

explores the ways teaching has evolved from the authoritative style of the 1950s to the collaborative design better suited to the students in today's digital world.

RIGHT BEFORE YOUR EYES

A FRESH APPROACH TO INTERPRETING A PIANO SCORE

by Ruth Price

In engaging and informal language, Ruth Price invites pianists to look for the "magic" in well-known works from both concert and student repertoire. What gives a piece its identity? How can we get inside the composition in order to develop an interpretation? What makes us fall in love with certain passages? *Right Before Your Eyes* passionately delves into piano music

through score study, based on the idea that if we start with our emotional reactions to the music, analysis and interpretation will flow more naturally. It is a valuable guide to score study for students at every level, and a must-have book for every piano teacher.

Plans help bring about gradual changes or improvements from week to week that are enough to keep the piece developing, and, more importantly, to keep the student immersed and motivated in the process.

Christmas holds a unique place in the hearts of Polish people, as it presents an opportunity to unite in peace, love, and forgiveness, and to express deep reverence for the Christ Child. Their wonderful folk flavor and typically Polish emotional character, ranging from sad to humorous and tender, provided the inspiration for this

Fantasia on Christmas Carols, in which a series of seven “Kolendy” are threaded together through key relationships and transitional elaborative sections.
